REGULATORS

A700

Part number

11.700.000

SCUBAPRO once again sets the standard for second stage regulator performance with the A700. Integrating air-balanced valve technology, the A700 brings you extraordinary breathing performance in a striking, precision-handcrafted, full metal package. Whatever your dive destination, the SCUBAPRO A700 lets you breathe effortlessly and naturally underwater for a lifetime of exceptional dive experiences.

Second Stage

- Air Balanced Flow Valve
- Diver's Adjustable Inhalation Effort
- Co-Axial Adjustable VIVA
- Super High Flow Exhaust valve
- Full Metal Housing
- Metal Components
- Super Comfort High-flow Mouthpiece

MK25 EVO / A700

NEW

Part number

Description

12.770.040

INT 232

12.770.060

DIN 300

A unique system offering incomparable performance and beauty. Full-metal design ensures a hard-wearing, compact second stage.

A dramatically evolved balanced piston first stage with 30% increased freezing resistance, greater inhalation sensitivity for ultra-fast breathing response, instant delivery of air on demand and extra-high airflow no matter how cold the water temperature.

First stage

- New XTIS (Extended Thermal Insulating System) with mechanism fully insulated from the environment, improves cold water/ freezing resistance without compromising piston breathing performance. (Patent pending)
- Additional fins on machined body provide extra thermal exchange
- Modern cosmetic design.
- Key insulation system components visible in blue.
- Meets new EN250-2014 standards requirements
- Air Balanced Piston
- 2 HP ports
- 5 High Flow Ports
- Swivel

MK17/A700

Part number

Description

12.714.000

INT 232

12.714.300

DIN 300

With the same unique look and feel of the MK25/A700, this is the ultimate system for cold and murky water. Every component is designed for extreme resistance to freezing.

First Stage

- Balanced Diaphragm
- Dry Chamber
- 2 HP/ 2 LP ports
- 2 High Flow Ports

S600

Part number

11.603.000

Timeless design and chrome plated marine grade brass make this high performing system a classic.

Second Stage

- Air Balanced Flow Valve
- Diver's Adjustable Inhalation Effort
- Adjustable VIVA
- High Flow Exhaust Valve
- Metal Components
- Super comfort High-flow mouthpiece

MK25T/S600T

Part number

Description

12.780.060

DIN 300

The first stage is machined from a solid block of titanium, the second stage uses titanium on the exterior housing plus a machined titanium interior barrel.

First Stage

- Full titanium 1st stage
- Air Balanced Piston
- 2 HP ports
- 5 High Flow Ports
- Swivel

Second Stage

- Full titanium barrel and titanium inserts

MK25/S600 DEEP BLUE

Part number

Description

12.950.060

INT 232

12.950.070

DIN 300

The flawless performance of our best-selling air balanced second stage made super lightweight and corrosion resistant, with an interior titanium barrel, in a jewel-colored deep blue PVD finish for high scratch and corrosion resistance

First Stage

- Air Balanced Piston–Controlled
- Jewel colored Deep Blue PVD exterior finish guarantees high scratch and corrosion resistance
- 2 HP Ports
- 5 High Flow Ports
- Swivel

Second Stage

- New Titanium Core 2nd Stage
- Jewel colored Deep Blue PVD exterior finish
- Full Titanium Barrel

MK25/S600 BLACK TECH

Part number	Description
12.971.080	INT 232
12.971.090	DIN 300

The Black Tech coating is not only for aesthetics, it is also extremely scratch and corrosion resistant. Applied on both the first and second stages, this premium finishing gives a real technical plus to a high performing regulator.

First Stage

- Air Balanced Piston
- 2 HP ports
- 5 High Flow Ports
- Swivel

MK25 EVO/S600

NEW

Part number	Description
12.971.050	INT 232
12.971.070	DIN 300

Flawless performance and ease of breathing are the essence of this system. The preferred combo of professionals embarking on long and deep dives and a never-to-regret choice for any demanding diver. Our best-selling S600 is continuously evolving and is in its 5th edition.

First stage

- New XTIS (Extended Thermal Insulating System) with mechanism fully insulated from the environment, improves cold water/ freezing resistance without compromising piston breathing performance. (Patent pending)
- Additional fins on machined body provide extra thermal exchange
- Modern cosmetic design.
- Key insulation system components visible in blue.
- Meets new EN250-2014 standards requirements
- Air Balanced Piston
- 2 HP ports
- 5 High Flow Ports
- Swivel

MK25 EVO/S600/R195 Octopus

NEW

Part number	DESIGNATION
12.971.970	INT 232
12.971.960	DIN 300

MK17/S600

Part number	Description
12.927.040	INT 232
12.927.060	DIN 300

A system designed to deliver good performance and ease of breathing in all diving conditions.

First stage

- Balanced Diaphragm
- Dry Chamber
- 2 HP/ 2 LP ports
- 2 High Flow Ports

S560

Part number
11.560.000

A lighter techno-polymer barrel version of the S600 second stage, the S560 is air balanced with diver adjustable inhalation effort and VIVA. Guarantees effortless and smooth breathing in all conditions. Combined with our new compact MK21 first stage for an ideal recreational system.

Second Stage

- Lightweight techno-polymer barrel
- Air Balanced flow Valve
- Diver's Adjustable Inhalation Effort
- Adjustable VIVA
- High Flow Exhaust Valve
- Super comfort high-flow mouthpiece.

Mouthpiece

- New silver silkscreened printing

MK21/S560

Part number	Description
12.974.000	INT 232
12.974.300	DIN 300

More than an excellent mid-range system. This combination offers high performance, reliable SCUBAPRO technology and value.

First Stage

- Compact sized air balanced, piston-controlled first stage
- Close to 20% smaller than our MK25
- Mid-range piston 1st stage offering the best compromise for the right price and the right performance.
- Easy maintenance.
- Unique thermal exchange design with external fins, optimizing freezing resistance
- Optional replaceable head for optimal positioning with 4 LP routing configurations (0°/30°). Ideal for Technical diving.
- Standard head with 4 LP hose routing (+/- 20°)
- 2 HP ports, one on each side of the body.
- Polished chrome plated marine grade brass
- Re-designed yoke and cap

G260 TACTICAL

Part number

11.263.080

Set yourself apart with the G260 Tactical edition. The high balanced performance of the G260 is housed in a stealth, rugged, nylon fiberglass case, with a dark anodized aluminum ring. Delivered standard with a covered LP hose swivel, or without swivel for special military applications.

Second Stage

- New premium technical 2nd stage
- G260 technology with a stealth, rugged, nylon fiberglass case and a dark anodized aluminum ring.
- Stealth design knob and nut.
- New covered hose swivel for total comfort and control (available without swivel for military applications)
- Air-balanced Flow Valve
- Diver's Adjustable inhalation effort
- Adjustable VIVA
- High Flow Exhaust valve
- Metal components for excellent cold water resistance
- Large Diaphragm
- Reversible Hose Attachment
- Super Comfort High-flow mouthpiece

MK25 EVO/G260 TACTICAL

NEW

Part number

Description

12.252.050

INT 232

12.252.070

DIN 300

Aimed at technical divers, this system can face any dive situation with rock-solid performances and outstanding reliability.

First stage

- New XTIS (Extended Thermal Insulating System) with mechanism fully insulated from the environment, improves cold water/ freezing resistance without compromising piston breathing performance. (Patent pending)
- Additional fins on machined body provide extra thermal exchange
- Modern cosmetic design.
- Key insulation system components visible in blue.
- Meets new EN250-2014 standards requirements
- Air Balanced Piston
- 2 HP ports
- 5 High Flow Ports
- Swivel

MK17/G260 TACTICAL

Part number

Description

12.172.080

INT 232

12.172.090

DIN 300

The ideal system for tech divers and cave explorers, perfect for cold waters and with optimal routing options.

First Stage

- Balanced Diaphragm
- Dry Chamber
- 2 HP/ 2 LP ports
- 2 High Flow Ports

G260

Part number

11.263.000

The G260 is a balanced adjustable second stage featuring metal components for excellent cold water resistance (inlet tube, orifice, inhalation control knob and hose connector). It's high performance makes it a choice for all demanding divers and it will be the natural choice for G250 fans. The left-right hose attachment option makes it ideally suited for tech diving configurations.

Second Stage

- Air Balanced Flow Valve
- Diver's Adjustable Inhalation Effort
- Adjustable VIVA
- Super High Flow Exhaust valve
- Metal Components
- Larger Big Diaphragm
- Reversible Hose Attachment
- Super comfort High-flow mouthpiece

MK25 EVO/G260

NEW

Part number

Description

12.252.010

INT 232

12.252.030

DIN 300

- New XTIS (Extended Thermal Insulating System) with mechanism fully insulated from the environment, improves cold water/ freezing resistance without compromising piston breathing performance. (Patent pending)
- Additional fins on machined body provide extra thermal exchange
- Modern cosmetic design.
- Key insulation system components visible in blue.
- Meets new EN250-2014 standards requirements

MK21/G260

Part number

12.977.300

DIN 300

First stage

- Compact sized air balanced, piston-controlled first stage
- Close to 20% smaller than our MK25
- Mid-range piston 1st stage offering the best compromise for the right price and the right performance.
- Easy maintenance.
- Unique thermal exchange design with external fins, optimizing freezing resistance
- Optional replaceable head for optimal positioning with 4 LP routing configurations (0°/30°). Ideal for Technical diving.
- Standard head with 4 LP hose routing (+/- 20°)
- 2 HP ports, one on each side of the body.
- Polished chrome plated marine grade brass
- Re-designed yoke and cap

MK17/G260

Part number	Description
12.172.000	INT 232
12.172.300	DIN 300

The ideal system for tech divers and cave explorers, perfect for cold waters and with optimal routing options.

First stage

- Balanced Diaphragm
- Dry Chamber
- 2 HP/ 2 LP ports - 2 High Flow Ports

MK17/G260/R195 Octopus PACKAGE

R195

Part number	Description
11.331.000	

The R195 is a design based on the heritage of the classic R190 second stage, re-engineered with modern features and materials. The R195 combines a classic downstream valve with a large diaphragm and classic purge button. Its simple and robust construction offers the utmost in reliability and makes the R195 the ideal second stage for new divers and a perfect choice for deco tanks thanks to its reversible hose attachment.

Second Stage

- Classic Downstream Valve
- Adjustable VIVA
- Reversible Hose Attachment
- Larger Big Diaphragm
- Pre-tuned inhalation effort
- Super comfort High-flow mouthpiece

MK2 EVO/R195

NEW

Part number	Description
12.118.000	INT 232
12.118.300	DIN300 /R195

Bulletproof reliability and minimal maintenance make it the system of choice for demanding training centers as well as new divers.

A totally evolved classic downstream piston first stage, now more of a workhorse than ever. With increased breathing sensitivity and better airflow, freezing resistance is dramatically increased.

First stage

- New XTIS (Extended Thermal Insulating System) with mechanism fully insulated from the environment, increasing freezing resistance by 50%. (Patent pending)
- Key insulation system components in blue.
- Airflow increased by 15%
- The larger piston provides better breathing performance and sensitivity, yet the overall body size, reduced by 3,5mm, results in a more compact first stage.
- Removable orifice allows easier maintenance and longer regulator life.
- Modern cosmetic design
- Classic Downstream Piston
- 1 HP/ 4 LP ports

MK2 EVO/R195 OCTOPUS

NEW

Part number	Description
12.118.100	INT 232
12.118.350	DIN 300

Same characteristics as the MK2 EVO/R195 system, but with a high visibility yellow cover and 1 meter long yellow hose for easy access and air sharing.

A totally evolved classic downstream piston first stage, now more of a workhorse than ever. With increased breathing sensitivity and better airflow, freezing resistance is dramatically increased.

First stage

- New XTIS (Extended Thermal Insulating System) with mechanism fully insulated from the environment, increasing freezing resistance by 50%. (Patent pending)
- Key insulation system components in blue.
- Airflow increased by 15%
- The larger piston provides better breathing performance and sensitivity, yet the overall body size, reduced by 3,5mm, results in a more compact first stage.
- Removable orifice allows easier maintenance and longer regulator life.
- Modern cosmetic design
- Classic Downstream Piston
- 1 HP/ 4 LP ports

R095

NEW DESIGN

Part number	Color
11.330.600	Black

New restyled, richer looking classic downstream valve technology second stage, well known for safety and reliability.

Second Stage

- New streamlined look and evident Scubapro branding with embossed purge button
- Classic Downstream valve
- Pre-tuned VIVA for uncomplicated use
- Reversible hose attachment

MK11/R095

NEW DESIGN

Part number	Description
12.095.010	INT 232
12.095.030	DIN 300

This system offers recreational divers great breathing performance even in deeper dives, no matter the level of air left in the tank.

First Stage

- Balanced Diaphragm
- 2 HP/ 2 LP ports
- 2 High Flow Ports

MK2 EVO/R095

NEW NEW DESIGN

Part number	Description
12.096.000	INT 232
12.096.300	DIN 300

Thanks to its bullet-proof design, it is the system of choice for training centers as well as new divers.

A totally evolved classic downstream piston first stage, now more of a workhorse than ever. With increased breathing sensitivity and better airflow, freezing resistance is dramatically increased.

First stage

- New XTIS (Extended Thermal Insulating System) with mechanism fully insulated from the environment, increasing freezing resistance by 50%. (Patent pending)
- Key insulation system components in blue.
- Airflow increased by 15%
- The larger piston provides better breathing performance and sensitivity, yet the overall body size, reduced by 3,5mm, results in a more compact first stage.
- Removable orifice allows easier maintenance and longer regulator life.
- Modern cosmetic design
- Classic Downstream Piston
- 1 HP/ 4 LP ports

MK11/R095 PACKAGE

S360 OCTOPUS

NEW DESIGN**Part number**

11.363.200

The S360 Octopus has been cosmetically updated, combining the features of the air balanced S360 with a high visibility yellow cover and a 1 meter long yellow hose for easy sharing.

Second Stage

- Air balanced Flow Valve second stage
- Adjustable VIVA
- Pre-tuned inhalation effort
- High flow Exhaust valve

R195 OCTOPUS

Part number**Description**

11.331.200

Combines the features of the R195 with a high visibility yellow cover and a 1 meter long yellow hose for easy sharing.

Second Stage

- Classic Downstream Valve
- Adjustable VIVA
- Reversible Hose Attachment
- Larger Big Diaphragm
- Super comfort High-flow mouthpiece

R095 OCTOPUS

NEW DESIGN**Part number**

11.330.400

Restyled, richer looking, with the same characteristics as the R095, but with a high visibility yellow cover and 1 meter long yellow hose for easy access and air sharing

Second Stage

- Classic Downstream Valve
- Pre-Tuned VIVA
- Reversible Hose Attachment

R195 NITROX OCTOPUS

Part number

11.335.500

For simplicity and top reliability, the R095 has been developed in compliance with the most stringent safety norms.

Second Stage

- Classic Downstream Valve
- Adjustable VIVA
- Reversible Hose Attachment
- Larger Big Diaphragm
- Super comfort High-flow mouthpiece

MK25 EVO/S560 NITROX

NEW

Part number

12.560.500

Description

NITROX 300B

The MK25 EVO/S560 is a specially dedicated Nitrox version, combining our top performing first stage with our balanced S560 second stage. For simplicity and top reliability, they have been developed in compliance with the most stringent safety norms.

MK2 PLUS/R195 NITROX

Part number

12.920.050

Description

MK2PLUS/R195 DIN 300

The MK2 Plus/R195 system and R195 Octopus are also available in a dedicated Nitrox version. For simplicity and top reliability, they have been developed in compliance with the most stringent safety norms.

First Stage

- Classic Downstream Piston
- 1 HP/ 4 LP ports

AIR 2

NEW

Part number	Description
-------------	-------------

21.090.000	AIR2 (5. GEN)
------------	---------------

Now in a new 5th generation version the Air2, is not only an extraordinary BC inflator, but the work-of-breathing has been dramatically improved, providing the same, smooth breathing performance as a downstream second stage regulator and at all tank pressures.

Dramatically improved work-of-breathing effort obtaining the same performance as a traditional downstream second stage.

- Classic Downstream Valve
- Dive/Pre-Dive Switch for adjustable VIVA
- Improved design, control and safety for BC inflating
- Larger deflation button and high-comfort mouthpiece
- CE certified EN250 (A > 10°C warm water test controls) as a second stage regulator
- Can be assembled on any BC
- Single Hose Configuration

MK25 EVO

NEW

Part number	Description
10.713.010	INT 232
10.713.030	DIN 300

A dramatically evolved balanced piston first stage with 30% increased freezing resistance, greater inhalation sensitivity for ultra-fast breathing response, instant delivery of air on demand and extra-high airflow no matter how cold the water temperature.

First stage

- New XTIS (Extended Thermal Insulating System) with mechanism fully insulated from the environment, improves cold water/ freezing resistance without compromising piston breathing performance. (Patent pending)
- Additional fins on machined body provide extra thermal exchange
- Modern cosmetic design.
- Key insulation system components visible in blue.
- Meets new EN250-2014 standards requirements
- Air Balanced Flow-through Piston
- 2 HP ports
- 5 High Flow Ports
- Swivel

MK21

Part number	Description
10.721.000	INT 232
10.721.300	DIN 300

- Close to 20% smaller than our MK25
- Mid-range piston 1st stage.
- Easy maintenance.
- Thermal exchange design with external fins, optimising freezing resistance.
- Optional replaceable head for optimal positioning with 4 LP routing configurations (0°/30°) plus a 5th, central LP HF port. Ideal for technical diving.
- Standard head with 4 LP hose routing (+/- 20°)
- 2 HP ports, one on each side of the body.
- Polished chrome plated marine grade brass
- Re-designed yoke and cap

MK17

Part number	Description
10.714.000	INT 232
10.714.300	DIN 300

The MK17 is a high performance, balanced diaphragm first stage engineered especially for cold water or harsh environments. The MK17 is environmentally sealed so neither water nor pollution can enter the inner mechanism. Full-metal (chrome plated marine grade brass) body and components and a dry ambient pressure chamber prevent it from freezing, ensuring trouble free operation even in coldest conditions.

- Balanced Diaphragm
- Dry Chamber
- 2 HP/ 2 LP ports
- 2 High Flow Ports

MK11

Part number	Description
10.708.000	INT 232
10.708.300	DIN 300

With its chrome plated brass body specially designed to reduce size and weight, the MK11 is an ideal travel companion. The diaphragm system keeps water and pollution out of the main mechanism while balanced technology delivers air promptly at all tank pressures.

- Balanced Diaphragm
- 2 HP/ 2 LP ports
- 2 High Flow Ports

MK2 EVO

NEW

Part number	Description
10.063.000	INT 232
10.063.300	DIN 300

A totally evolved classic downstream piston first stage, now more of a workhorse than ever. With increased breathing sensitivity and better airflow, freezing resistance is dramatically increased.

First stage

- New XTIS (Extended Thermal Insulating System-Patent pending) with mechanism fully insulated from the environment, increasing freezing resistance by 50 %.
- Key insulation system components in blue.
- Airflow increased by 15 %
- The larger piston provides better breathing performance and sensitivity, yet the overall body size, reduced by 3,5 mm, results in a more compact first stage.
- Removable orifice allows easier maintenance and longer regulator life.
- Modern cosmetic design
- Classic Downstream Piston
- 1 HP/ 4 LP ports

REGULATOR COLOR COVERS

Part number	Description	Color
11.602.030P	S600	White
11.602.032P	S600	Blue
11.602.039P	S600	Pink
11.602.033P	S600	Red
11.602.034P	S600	Yellow
11.360.060P	C200	Black
11.361.040P	C300	Yellow
11.361.060p	C300	Black

SUPER COMFORT HIGH FLOW MOUTHPIECE

Part number	Description
01.040.120P	Mouthpiece Kit
01.040.120	Mouthpiece, black

The Supercomfort HF mouthpiece is a great addition to any second stage. HF indicates the High Flow offered by the larger bore connection tube, while the longer bite area allows diver to hold the regulator securely with minimal effort and no jaw fatigue.

COLORED MOUTHPIECES AND HOSE PROTECTORS

Part number	Description	Color
01.040.030	KIT MOUTHPIECE + PROTECT SLV BLU	Blue
01.040.040	KIT MOUTHPIECE + PROTECT SLV BLU	Red
01.040.060	KIT MOUTHPIECE + PROTECT SLV BLU	Yellow
01.040.070	KIT MOUTHPIECE + PROTECT SLV BLU	Pink
01.040.080	KIT MOUTHPIECE + PROTECT SLV BLU	White

Add more color to your regulator for a totally customized look. Or use the new mouthpiece/hose protection (1st stage) color kits to easily distinguish your mixes on tech dives. Available in several colors they let you to match your regulator to the rest of your gear.

OCTOPUS CLIPS

Part number	Description
01.097.137	MAGNETIC HOLDER
01.097.134	OCTOPUS CLIP LIME
01.097.136	OCTOPUS CLIP GREY

- Very strong magnet
- Can be attached to the hose or with ring
- Exclusive SCUBAPRO Design

ADAPTERS

Part number	Description
10.760.030	KIT DIN MK25 TITANIUM 300 BARS
10.019.000	YOKE ADAPTER DIN to INT ULTRA LIGHT
10.044.020	KIT DIN MK2 200 BARS
10.044.030	KIT DIN MK2 300 BARS
10.045.020	KIT DIN UNIVERSAL 200 BARS

ACCESSORIES

Part number	Description
10.721.004	Kit Cap MK21
01.010.000	Regulator Necklace
11.101.003	120° elbow
01.040.059	Mouthpiece C/W Clip Clear
01.040.051	Mouthpiece C/W Clip Black
01.040.141	Silicone Mouthpiece Black
01.040.149	Silicone Mouthpiece Clear
01.040.123	Silicone Mouthpiece Junior Clear
01.040.025	Re-Useable Clip In Blister
01.040.131	PVC Mouthpiece Black
01.040.026	Re-Useable Clip Simple
01.088.101	Cable Tie Black
01.040.102	PVC Mouthpiece Blue
11.029.100	Hose Protectors black Twin Pack
11.029.400	Hose Protectors lime Twin Pack
10.700.020	Kit MK20 Din200
10.700.030	Kit MK20 Din300
10.700.010	Kit MK20 Int
10.101.211	Protector, hp, 1st stage
10.101.212	First stage dust cover
01.040.133	Mouthpiece NEW AIR 2

CONVERSION KITS

Part number	Description
10.116.030	MK16 - MK17
10.500.047	MK10 - MK10 PLUS
10.600.030	MK25 - MK25AF
11.500.070	G500 - S600
11.602.020	S600 METAL BARREL KIT

COMPUTERS & INSTRUMENTS

GALILEO SOL

Part number	Description
05.077.100	SOL (with Polar heart rate strap and air transmitter)
05.077.101	SOL (with Polar heart rate strap but no air transmitter)
05.055.020	Galileo gas transmitter only

The Galileo Sol is our ultimate dive computer, with limitless, unique-to-the-industry features.

- ZHL8 ADT MB algorithm
- Predictive Multi-Gas (PMG)
- PDIS (Profile Dependent Intermediate Stops)
- Nitrox settings 21% to 100%
- Gauge mode
- Apnea mode
- Altimeter
- Active back light
- Bookmark function
- Easily replaceable battery
- Extra-large dot matrix display and huge memory
- Oil-filled technology
- Hoseless Gas Integration with true RBT calculation
- Heart Rate Monitor Function
- Full tilt digital compass with bearing memory
- Impressive personalization options
- Maximum operating depth: 330m
- Continuously updated average depth display

GALILEO LUNA

Part number	Description
05.076.100	GALILEO LUNA with transmitter
05.076.101	GALILEO LUNA without transmitter

The Galileo LUNA model is everything you need for an extraordinary underwater experience. Luna contains all core SCUBAPRO technology and all features of the Sol except two, which can be added as optional upgrades later Predictive Multi-Gas (PMG) and Heart Rate Monitor (HRM).

GALILEO UPGRADES

Part number	Description
05.070.002	PMG UPGRADE
05.070.001	HRM Upgrade, incl. Polar Belt

MERIDIAN BLACK TECH

Part number

05.060.200

Available in a Black Tech version, this computer is not only beautiful and high performing, but incorporates a PVD (Physical Vapour Deposition) finishing process applied to the AISI 316L stainless steel body. This finish is accomplished using Titanium Nitride and provides the following advantages:

- 2500HV hardness - anti-scratch effect.
- Unaffected by UV rays.
- 100% non-toxic.
- High corrosion resistance.
- Low friction co-efficient.
- Very low magnetic signature.

PVD covers the entire Meridian body, except buttons and the back cover. PVD does not eliminate potential scratches, but it does lessen the likelihood in normal wear.

Limited stocks available

MERIDIAN

Part number

05.060.100

Use Meridian as a multi-function wrist watch, dive in SCUBA, APNEA or GAUGE modes. Displays are visually clear and easy to navigate. Housing in highest marine grade 316L stainless steel with two-toned brushed finishing, for heavy duty longevity with designer looks.

- ZHL8 ADT MB algorithm
- Predictive Multi-Gas (PMG)
- PDIS (Profile Dependent Intermediate Stops)
- Nitrox settings 21% to 100%
- Gauge mode
- Apnea mode
- Altimeter
- Active back light
- Bookmark function
- Easily replaceable battery
- Heart Rate Monitor
- Full watch functions
- Maximum depth rating: 120m
- Continuously updated average depth display

Limited stocks available

MERIDIAN ACCESSORIES

Part number	Description
05.060.001	Interface cradle
05.060.004	Polar Heart Rate Belt
05.060.005	Nylon Extension Strap
05.060.003	Nylon Strap
06.204.206	Black strap
05.060.006	Blue strap
05.060.007	Red strap
05.060.008	Orange strap
05.060.009	Yellow strap

CHROMIS

Part number	DESIGNATION
05.061.100	Black
05.061.200	White
05.061.300	Black/Orange

The CHROMIS wrist computer is ready for your next adventure, in or out of the water. Reaching a new level of clarity, the large display and Katana-sharp characters are proven to be exceptionally readable under water. You'll have a host of tools at your fingertips, including a full-featured dive computer, apnea gauge, timepiece, and patented lap counter.

- Easy to read larger digits
- ZHL8 ADT MB algorithm
- Dual time
- Stopwatch function in SCUBA mode
- 120m maximum operating depth
- Larger capacity CR2430 battery
- SCUBAPRO engraved SS316L stainless steel front ring and back
- Patented Swimming Stroke counter: counts strokes or kicks and calculates distance
- Colors: Black, Orange, White
- Strap extension included
- Nitrox settings 21% to 100%
- Feed-through push buttons
- APNEA and GAUGE modes
- USB connection with cradle usable for everyday
- Logs can be stored and analyzed with a PC/Mac
- Alarm clock

ALADIN SQUARE

Part number	Description
05.040.110	ALADIN SQUARE
05.040.001	Shark USB dongle

A return to our 'square' type screen and successor to the iconic Aladin Pro.

- Extra-Large digits
- Easy-to-read display design
- Double O-ring seals
- ZHL8 ADT MB algorithm
- Predictive Multi-Gas (PMG)
- PDIS (Profile Dependent Intermediate Stops)
- Nitrox settings 21% to 100% with adjustable ppO₂.
- Gauge and Apnea modes
- Altimeter
- Logbook (100 dive hours)
- Active back light
- Bookmark function
- Easily replaceable battery
- Optional wired interface "Shark"
- Full watch functions
- Maximum operating depth: 120m/360ft
- Stopwatch in scuba mode
- Replaceable adhesive film for display protection

3 GAUGE INLINE CONSOLE

Part number	Description
05.023.353	Depth gauge, FS2 (2014)
05.014.353	Digital 330, FS2 (2014)
06.204.408	Boot only (2014)

Capturing all gauges below in a new 3 gauge console to get all your dive information at a glance.

- Available with DIGITAL 330 or Standard Depth Gauge 60m (Oil-filled)
- Compact Pressure Gauge 0-400 bars (Ø 48mm) with plastic case
- FS2 Compass

COMPACT CONSOLE

Part number	Description
28.042.100	Compact console
28.039.302P	SPG capsule
28.860.005	DG capsule
28.042.101	Boot only

The 2 most important dive data instruments in a bulletproof, ergonomic and compact console.

- Compact Pressure Gauge 0-400 bars (Ø 48mm) with brass case
- Compact Depth Gauge 70m (Ø 48mm) with Maximum Depth Indicator (Air-filled)

SCUBAPRO PG DUAL BAR/PSI

Part number	Description
05.023.132	Scubapro Dual PG BAR/PSI
05.022.032	Capsule Scubapro PG dual bar/psi

New compact all-metal analogue pressure gauge in new boot. Its dual bar/psi scale makes it ideal for traveling divers and resorts with international clientele.

- Compact pressure gauge 0-400b & 0-6000psi
- Red zone between 50 and 0 bar (800 and 0psi)
- 150m/492 ft maximum depth

COMPACT PRESSURE GAUGE

Part number	Description
28.039.300	Compact SPG
28.039.302P	Capsule without hose

Our smallest pressure gauge: extra safety with minimum bulk.

- Compact Pressure Gauge 0-400 bars with brass case
- Red zone between 50 and 0 bar and 10 bar increments

STANDARD PRESSURE GAUGE

Part number	Description
05.011.112	Std SPG 400 BARS 0°
05.011.113	Std SPG 400 BARS 40°
05.011.012	SPG 400 BARS 0° CAPSULE
05.011.013	SPG 400 BARS 40° CAPSULE

Standard reliable pressure gauge designed for years of regular use.

- Standard Pressure Gauge 0-400 bars (Ø 60mm) with plastic case
- Red zone between 50 and 0 bar and 10 bar increments
- Available with 0° or 40° oriented dial

SURFACE PRESSURE GAUGE

Part number	Description
28.002.000	INT
28.036.200	DIN 200

DIGITAL 330

Part number	Description
05.014.110	Digital 330m
05.014.010	Capsule only

An original 'one-of-a-kind' digital depth gauge. It integrates basic dive information into a highly accurate and accessible electronic instrument, imperative for all diving levels. The restyled Digital 330m is the perfect evolution of the classic Digital Depth Gauge, which was introduced by UWATEC in 1989. Targeted for technical divers, but also ideal for beginners or as a back up instrument whatever your level, the Digital 330m offers precise accuracy in all diving conditions. Comes in a wrist model or a 3-gauge In-line console.

- Automatic turn on and off
- Depth to 330 m
- Maximum depth displayed
- Dive time in minutes
- Temperature (water and air)
- Rate of ascent in M/Min & %
- Surface interval displayed for 24 hours

STANDARD DEPTH GAUGE

Part number	Description
05.011.111	Depth Gauge wrist

Proven depth gauge adapted to every diver, from the beginner to the experienced diver who wants a reliable backup. Depth markings up to 60m.

- Oil-filled analogue depth gauge
- Linear Bourbon tube design
- Maximum Depth Indicator
- High impact resistant nylon case

FS-2 COMPASS

Part number	Description
05.017.101	FS2 Compass
05.017.121	FS2 Ccompass w/ boot
05.017.001	FS2 Capsule only
05.017.111	FS2 with boot (no retractor)

FS-2 is a universal compass featuring a unique tilt angle of up to 35 degrees, making it easier to read and operate in most any position.

- Functions in both N & S hemispheres
- 35° tilt angle
- Oil-filled and sealed
- Available in wrist model or with retractor

C1 COMPASS

Part number

05.015.100

A very compact compass for general orientation bearings on recreational dives.

- Quick-connect convenience
- Four main directions clearly indicated: N/E/S/W
- Very fast response

COMPASS LIGHT

NEW

Part number

 05.017.900

Small module inserts behind a compass, inside the console boot. The diaphragm is activated by water pressure and switches on when diving and automatically switches off once on the surface. This LED has no magnetic signature so perfect for military and professional divers.

INSTRUMENT BAG

Part number	L	W	H	V	Wg.	Dealer	Retail
53.381.140	7	11.5	15	1.2	0.20	5.00	10.00

Small versatile computer bag protects wrist computers and other valuables.

- Soft protection bag
- Heavy duty PVC (Tarpaulin) fabric
- Heavy duty snap closures
- Capacity: 0,6L

INFRARED INTERFACE (IRDA)

Part number

 05.050.001

- To connect to a PC that does not have an infrared port
- Plugs into the USB port for quick and simple downloading from your UWATEC dive computer.

ARMSTRAPS

Part number	Description
06.203.027	GALILEO SOL / TERRA / LUNA
06.202.342	FS-1 / FS-2 COMPASS
05.061.002	CHROMIS STRAP BLACK
05.061.003	CHROMIS STRAP WHITE
05.061.004	CHROMIS STRAP ORANGE
06.204.669	CHROMIS LOOP BLACK
06.204.670	CHROMIS LOOP WHITE
06.204.671	CHROMIS LOOP ORANGE
06.204.468	SET ALADIN SQUARE
06.003.201	ALADIN SPORT
06.003.207	ALADIN PRO
06.003.209	ALADIN SPORT PLUS / ULTRA
06.201.851	SMART TEC / Z / PRO / ALADIN TEC / TEC 2G / 2G / PRIME / ONE / DIGITAL 330 BEFORE 2012 - (STRAP ONLY)
06.201.852	AIR Z / Z NITROX / Z O2 / SMART PRO/Z
06.204.268	ALADIN 2G/PRIME / DIGITAL 330M FROM 2012 - STRAP AND BOOT
06.204.269	ALADIN 2G (STRAP ONLY) FROM 2012

SCREEN PROTECTORS

Part number	Description
06.202.514	Rigid Galileo
06.202.722	3M Galileo
06.004.321	Air z
06.004.323	Smart Com
06.201.853	Smart Z /Smart TEC/Pro Ultra
06.202.927	Aladin:Tec/Prime/TEC 2G/2G
06.202.362	3M Aladin:Tec/Prime/TEC 2G/2G/One
06.204.045	Meridian screen film
06.204.291	Protection film Aladin Square
06.204.290	Protection Film Chromis

BATTERY KIT

Part number	Description
06.202.872	Galileo Sol / Terra / Luna
06.200.265	Old (Pre 95) Aladin
06.201.919	Aladin: Tec / Prime / TEC2G / 2G / One
06.201.920	Galileo Air transmitter (Smart TEC / Smart Z) 1st Generation
06.204.071	Air transmitter Galileo / Smart 2nd Generation
27.730.107	Meridian/Xtender
06.204.470	Battery kit Aladin Square
06.204.286	Chromis Battery

HP SWIVELS & COUPLINGS

Part number	Description
06.007.300	HP SWIVEL PIN - Uwatec
06.007.330	HP SWIVEL PIN-long, Uwatec from '04
06.203.548	SWIVEL FOR ATMAFLEX HOSE
28.132.005	HP SWIVEL PIN - SCUBAPRO
01.334.005	High Pressure QD Coupling

HIGH PRESSURE HOSES

Part number	Description
01.044.008	Pebax - 20 cm
01.044.031	Pebax - 80 cm
01.044.035	Pebax - 90 cm
01.044.039	Pebax - 100 cm
01.044.047	Pebax - 120 cm
06.204.278	HP HOSE 85 cm without QD
06.204.013	HP HOSE 100 cm with QD
05.004.010	Kevlar HP Extension Transmitter - 10 cm
05.004.100	Kevlar - 100 cm
05.004.085	Kevlar - 85cm
05.003.090	Kevlar - 90cm Quick Disconnect, Smart Com/Aladin Air
06.204.279	Kevlar - 100cm AIR/SMART COM w/o coupling

SCUBAPRO

2015

BOUYANCY COMPENSATORS

X-BLACK

Part number	Size
21.719.200	S
21.719.300	M
21.719.400	L
21.719.500	XL
21.719.600	2XL

The X-Black features the exclusive AirFlex system, highlighted by the red bungees, that simplifies buoyancy control and guarantees high stability. One of our most feature rich BCs, the X-Black is also one of the most comfortable even when fully inflated thanks to its ergonomic cut.

- Super Cinch Tank Band
- Fabric: C 1000D / N 420 D
- QR Front Weight Integration
- Weight Integration Back Trim
- 7 stainless steel D-Rings
- Airnet Backpack
- Knife Grommets
- QR Rotating Shoulder Buckles
- 2 Zipper Pockets
- Fully Adjustable Cummerbund
- With BPI

X-FORCE

Part number	Size
21.717.100	XS
21.717.200	S
21.717.300	M
21.717.400	L
21.717.500	XL
21.717.600	2XL

X-Force features our pre-formed wrap-around bladder providing higher buoyancy without squeezing when fully inflated. This design offers superior fit and weight distribution. X-Force is more than a powerhouse of features, making it the preferred choice of passionate and advanced recreational divers.

- Super Cinch Tank Band
- Fabric: C 1000D / N 420 D
- QR Front Weight Integration
- Weight Integration Back Trim
- 6 stainless steel D-Rings
- Airnet Backpack
- Knife Grommets
- Octopus holder
- 2 Zip Pockets
- Fully Adjustable Cummerbund
- With BPI

X-ONE with optional weight pockets

Part number	Size
21.724.100	XS
21.724.200	S
21.724.300	M
21.724.400	L
21.724.500	XL
21.724.600	2XL

The X-One fits the needs of divers looking for a simple and feature-rich BC. Based on the same reliable bladder as the T-One, it is offered without weight pockets (which can be purchased as an option part number 23.107.010). X-One is an ideal all-rounder BC or for rental use when weight integration is required. Size color code on both neck and pockets.

- Standard Nylon Band
- Fabric: C 1000D/N 420 D
- 2 stainless steel D-Rings
- Padded Back Pack
- Knife Grommets
- 2 Velcro Pockets
- Octopus Holder
- QR Front Weight Integration (optional) (Weightpocket with no. 23.107.010)
- With BPI

T-ONE

Part number	Size
21.703.000	2XS
21.703.100	XS
21.703.200	S
21.703.300	M
21.703.400	L
21.703.500	XL
21.703.600	2XL

The design of the T-One makes our most popular rental BC an ideal first purchase when you start diving. We have added features, improving comfort and ease of use, with the still same reliability and outstanding resistance the T-One is well known for. Size color code on both neck and pockets.

- Standard Nylon Band
- Fabric: C 1000D/N 420 D
- 2 stainless steel D-Rings
- Padded Back Pack
- 2 Velcro Pockets
- Octopus Holder
- With BPI

BELLA

Part number	Size
22.252.110	XS
22.252.210	S
22.252.310	M
22.252.410	L
22.252.510	XL

The Bella BC is specifically designed and meticulously tailored for the female diver. This high-end front-adjustable jacket has everything a diver want, including a SCUBAPRO-exclusive wraparound air bladder that retains its cradle-like shape even when fully inflated. Bella BC will allow you to experience the most comfortable diving ever.

- Super Cinch Tank Band
- Fabric: N 420D/N 420 D
- QR Front Weight Integration
- Weight Integration Back Trim
- 6 stainless steel D-Rings
- Padded Back Pack
- QR Rotating Shoulder Buckles
- 2 Zip Pockets
- Fully Adjustable Cummerbund
- With BPI

Shown with AIR2 (Option)

EQUATOR

Part number	Size
21.725.100	XS
21.725.200	S
21.725.300	M
21.725.400	L
21.725.500	XL

This bullet proof jacket should not be limited to travel diving. The comfort and technical features will convince you to use it in all your dive adventures

- Easy-to fold small back pack for lightweight travel
- Water draining Airnet back padding for super comfort
- Includes SCUBAPRO BPI inflator, corrugated hose, elbow and low profile dump valves using the latest technology for full safety and comfort.
- Tank Band with redesigned double tank straps, lightweight plastic buckle and easy-insert webbing.
- Fabric: Nylon 420 D
- Integrated weight pockets with low-profile buckles
- 6 stainless steel D-Rings
- Knife Grommets
- QR Rotating Shoulder Buckles
- 2 Zipper Pockets
- Soft neck finishing
- Octopus pockets on both sides
- With BPI

SEAHAWK

Part number	Size
22.140.210	S
22.140.310	M
22.140.410	L
22.140.510	XL
22.140.610	2XL

A dynamic, comfortable back flotation jacket. The Seahawk allows excellent freedom of movement, while still providing adequate storage with traditional cargo pockets.

- Super Cinch Tank Band
- Fabric: N 1000D / N 420 D
- QR Front Weight Integration
- 6 stainless steel D-Rings
- Padded Back Pack
- Knife Grommets
- QR Rotating Shoulder Buckles
- 2 Zip Pockets
- Fully Adjustable Cummerbund

Shown with AIR2 (Option)

LITEHAWK

Part number	Size
22.220.151	XS/S
22.220.351	M/L
22.220.551	XL/2XL

- Divers get the benefits of back flotation in this super lightweight BC made for easy traveling.
- Low-drag, low profile progressively-shaped air cell on a light back flotation BC
- Elastic cords automatically control the size and keep the air cell streamlined when partially inflated
- Constructed in durable 1000 Denier Nylon for long life wear
- Adjustable belt-style waist strap with Nylon lightweight buckle
- Lightweight, perfect for travel: just 2,36 kg
- Optional accessory quick-release weight pockets
- Balanced Power Inflator

NEW

MASTER JACKET

Part number	Size
21.181.200	S
21.181.300	M
21.181.400	L
21.181.500	XL
21.181.600	2XL

The Master Jacket has been certified as a Combined Buoyancy and Rescue Device thanks to its lift capacity and the "face up" body position at the surface. It is the stabilizing jacket choice of commercial, military, instructors and advanced divers needing intensive use, precise buoyancy control and comfort.

- Super Cinch Tank Band
- Fabric: Polyester / Soltane
- 4 Stainless steel D-Rings
- Padded Back Pack
- 2 Velcro Pockets
- With BPI

BPI

Part number	Description
21.610.000	BPI + hose (after 2013)
21.600.100	BPI + hose (before 2013)
21.610.002	BPI only (after 2013)
21.622.001	BPI only (before 2013)
21.080.626	Adapter AIR2 Hose to BPI
21.626.045	BPI Repair Kit

The Balanced Power Inflator has a streamlined and ergonomic design. The inflation button is easy to locate and requires little effort. A soft mouthpiece has been added. The corrugated hose features a new, easier to use SQAP (Safe and Quick Air Pin) lever and a connection between hose and elbow valve.

BC ACCESSORY KIT

Part number
23.120.000

The perfect BC accessories for safer diving

- Nova 200, Led Light
- White TIP BC knife
- Retractor with stop

BCD ACCESSORIES

Part number	Description
21.558.020	Safety strap BCD
21.567.004	Whistle
20.135.005	Super cinch band, short
23.073.010	Cinch band (pair) T-One / X ONE
20.140.000	Complete back pack 7/18L T-ONE/T-SPORT PLUS
21.009.006	Air 2 QD
21.080.626	Adapter Air2 hose to BPI
21.626.013	LP hose QD coupling
40.978.000	Peebax blow gun
20.134.003	Buckle cinch band
21.200.003	Bcd dump valve
21.200.017	Bcd dump valve wo cable
21.200.217	Pull dump system Long

SIDEMOUNT

Part number	Description
21.726.001	Harness only
21.726.400	Wing only (20kg/45lbs/200N)
21.726.200	Wing only (12kg/25lbs/120N)
21.726.117	Cover

Sidemount diving was originally conceived as a specific cave diving layout, allowing better maneuverability in small spaces. Side-mount diving has now become widespread. SCUBAPRO's modular design and compact independent air cell, developed in coordination with leading side-mount cave divers, is available in two sizes. It provides guaranteed quality and a configuration for every diver's needs.

- Modular approach
- Compact independent aircell
- Aircell size: 20 liters lift (45lbs/200 Newtons) & 12 liters lift (25lbs/120 Newtons)
- Soft Airnet finished backpack
- Compatible with current X-TEK Steel and aluminum back plates
- Stainless steel grommets, D-rings and handles
- New Dump valve, corrugated hose and BPI
- Specific streamlined elbow
- Bungee and hooks for tank support
- Fully adjustable, easy to wear and configure
- Side bungees for streamlined shape
- Optional top cover for total streamlining and increased durability
- Wing includes crotch strap

X-TEK PURE TEK SYSTEM

Part number	Description
22.195.010	13Kg
22.188.010	18 Kg
22.189.010	27 Kg

- Donut Wing with 18 or 27kg lift capacity
- Donut Wing with 27kg lift capacity for twin tanks
- 1680 DEN Ballistic Nylon outer shell
- 420 DEN Nylon inner bladder
- Stainless Steel back plate
- Continuous harness with stainless steel back plate for best stability when using twin cylinders
- Two shoulder D-rings and one waist stainless steel D-ring on the left side
- 50mm wide crotch strap with two stainless steel D-rings
- With X-Tek single tank adapter with two super cinch straps (not 27kg)
- Bladder includes crotch strap
- Heavy duty dedicated tech diving inflator
- Padded backpack: 13kg & 18kg
- Stainless steel backpack: 27kg
- Includes a single tank adapter as standard

X-TEK COMFORT SYSTEM

Part number
22.190.010

- Horseshoe (HS) Wing, 27kg lift capacity
- 1680 DEN Ballistic Nylon outer shell
- 420 DEN Nylon inner bladder
- Stainless Steel back plate
- Three-piece Comfort-Harness-System with padded shoulders and back pack for the ultimate in comfort
- Quick release buckles on both left and right shoulders for easy removal
- Convertible to single cylinder too
- Anatomically optimized back padding
- Adjustable shoulder straps for snug individual fit
- 50mm crotch strap with two stainless steel D-rings
- Heavy duty dedicated tech diving inflator
- Without single tank adapter

X-TEK PRO SYSTEM XTREME

Part number	Description
22.192.010	40 kg
22.191.010	27 Kg

Same as X-TEK Pro System Twin Cylinders, but with added lift capacity.

- Horseshoe (HS) Wing with 40kg lift capacity
- 1680 DEN Ballistic Nylon outer shell
- Two 420 DEN Nylon inner bladders
- Stainless Steel back plate
- Pro-Harness system with one left QR-buckle ,constructed of 50mm Ballistic webbing for maximum strength and with padded shoulders for better support and comfort
- With concealed storage pack for SMB's and lift bags
- Padded shoulder straps with two stainless steel D-rings
- 50mm crotch strap with two stainless steel D-rings
- Heavy duty dedicated tech diving inflators(2)
- Without single tank adapter

X-TEK HS WING TWIN

Part number	Description
22.187.010	40 kg
22.186.010	27 kg

- Horseshoe Wing
- 1680 DEN Ballistic Nylon outer shell
- Two 420 DEN Nylon inner bladders
- SCUBAPRO B.P.I.
- Bungee-System for minimum drag
- Available with 27 kg or 40 kg lift capacity.

X-TEK DONUT WING

Part number	Description
22.193.010	13 kg
22.183.010	18 kg
22.184.010	27 kg

- Provides unprecedented buoyancy control regardless of diving position.
- 1680 DEN Ballistic Nylon outer shell
- 420 DEN Nylon inner bladder
- SCUBAPRO B.P.I.
- Available with 13, 18 or 27 kg lift capacity

X-TEK HS WING

Part number	Description
22.194.010	27 kg D.I.R. w/o Bungee
22.185.010	27 kg

- Horseshoe Wing
- 1680 DEN Ballistic Nylon outer shell
- 420 DEN Nylon inner bladder
- SCUBAPRO B.P.I.
- Bungee-System for minimum drag
- Available with 27 kg lift capacity

X-TEK PURE TEK HARNESS

Part number	Description
23.804.000	Harness w/o backplate w/o crotch strap
22.179.000	Harness complete

- Stainless Steel back plate
- Secure continuous webbing
- Stainless steel waist buckle
- Two shoulder D-rings and one left D-ring on the waist belt
- Adjustable 50 mm crotch strap with two stainless steel D-rings

X-TEK PRO TEK HARNESS

Part number	Description
23.805.000	Harness w/o backplate, w/o crotch strap
22.180.000	Harness complete

- Stainless Steel back plate
- Pro-Harness-System with QR-buckle
- Padded shoulder straps with two stainless steel D-rings
- 50mm crotch straps with two stainless steel D-rings
- Back plate storage pack to fix a buoy

X-TEK FORM HARNESS

Part number	Description
23.806.000	Harness w/o backplate, w/o crotch strap
22.182.000	Complete harness

- Stainless steel back plate
- Tri-compound Comfort-Harness-System
- Anatomically optimized back padding
- Adjustable shoulder straps in length and alignment
- 50 mm Crotch Strap with two stainless steel D-rings
- Optionally equipped with QR-weight system

X-TEK BACKPLATE

Part number	Description
23.801.000	Aluminium
23.800.000	Stainless steel

- This backplate features optimized stability
- Ergonomic shape for maximum comfort and eliminates back stress on extended dives
- Numerous options on where to attach storage pack and additional various accessories
- Available in Stainless Steel (2.4kg) or in Aluminium (0.9kg), perfect for travel

X-TEK QR-WEIGHT POCKET

Part number	Description
23.803.000	Pair

- Weight pocket system with QR-buckle for divers seeking releasable weight pockets for their BC System

SOFT TRAVEL BACKPLATE

Part number
23.807.000

- For Comfort Harness, attaches to backplate includes 2 Super Cinch straps

X-TEK SINGLE TANK ADAPTER

Part number
23.802.000

- Attaches assembly point to extend the stainless steel back plate for dives with single tanks.
- Includes two SCUBAPRO Super-Cinch straps for optimal tank attachment

X-TEK SHOULDER PADS

Part number	Description
23.809.000	1 Pair

X-TEK ACCESSORY POCKETS

Part number	Description
23.810.000	Small
23.811.000	Large

- Optional accessory pouch for the harness waist band
- Two inner compartments with internal D-ring to secure accessories
- Available in two sizes

X-TEK COUNTER WEIGHT POCKETS

Part number	Description
23.812.000	Pair

- Tank or waist band mounted trim weight pockets for optimal weight distribution and in-water stability
- Accommodates 1kg of lead weight

X-TEK BACKPLATE STORAGE PACK

Part number
23.808.000

- Storage pack attaches to plate (plate sold separately)
- Includes screws

SURFACE MARKER BUOY POUCH

Part number
23.817.000

- Pouch to accommodate surface markers, fits on all X-TEK HS wings
- Easy to reach and comfortable to use in every position
- Size adjusts with bungee cord

X-TEK INFLATOR

Part number
23.813.000

- Complete inflator with hose

X-TEK SCREW SET

Part number	Description
01.108.102	M6/14mm x2
01.108.202	M6/09mm x2
01.108.402	M8 Washer

X-TEK CROTCH STRAP

Part number
23.818.000

- 50mm width, attaches to all backplates
- Complete with 2 stainless steel D-rings

STAINLESS STEEL BANDS

Part number	Description
23.814.000	140mm
23.815.000	171mm
23.816.000	204mm

- Stainless steel bands for the assembly of twin tanks
- 50mm wide, double reinforcement at the fixing point, laser etched SCUBAPRO logo
- Available for 2 x 140mm, 2 x 171mm or 2 x 204mm tanks

Kit of 2 bands

STAINLESS STEEL SNAPS

Part number	Description
01.030.090	Double ender - 90mm
01.030.100	Double ender - 100mm
01.031.010	Swivel 10/64
01.031.013	Swivel 13/76
01.031.019	Swivel 19/92
01.031.025	Swivel 25/96
01.032.032	Swivel (round eyelet) 32/122

- Stainless steel snaps AISI 316 for securing accessories and stage tanks
- Available in various sizes in double-end and swivel versions

ESSENTIALS

FRAMELESS

Part number	Color	Skirt Color
24.340.110	Black	Black

Single-lens mask featuring a unique lens and skirt assembly without a frame. A SCUBAPRO classic for professionals.

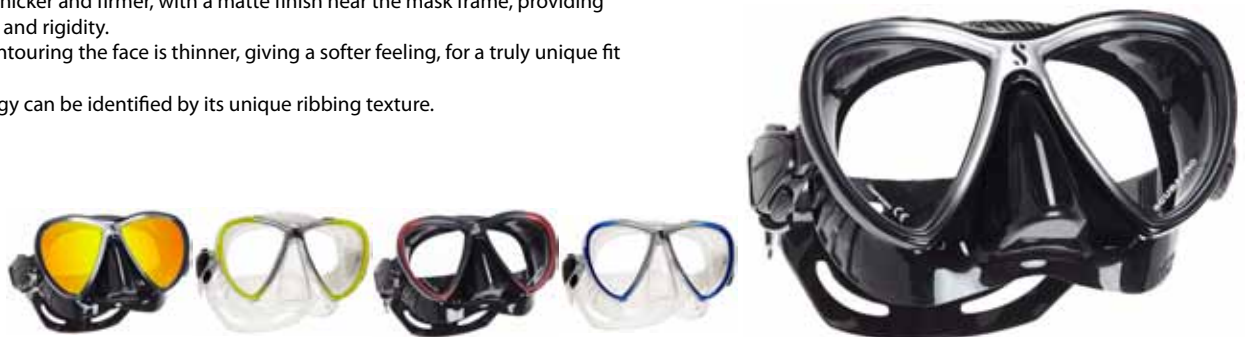

- Lightweight, Frameless Design
- Single-Lens Design
- Extremely Low Volume
- Soft Black Silicone Skirt

SYNERGY TWIN TRUFIT

Part number	Color	Skirt Color
24.713.130	Black Silver	Black
24.713.200	Blue Silver	Clear
24.713.310	Red	Black
24.713.500	Yellow	Clear
24.713.140	Black mirror lens	Black

- The silicone is thicker and firmer, with a matte finish near the mask frame, providing needed support and rigidity.
- The silicone contouring the face is thinner, giving a softer feeling, for a truly unique fit and seal.
- Trufit Technology can be identified by its unique ribbing texture.

CRYSTAL VU

Part number	Color	Skirt Color
24.855.110	Silver	Black
24.855.200	Blue	Clear
24.855.300	Red	Clear

26.012.108	Keeper insert snorkel Spectra/Marin snorkel

SCUBAPRO'S Seawing Nova fins have been upgraded for 2015.

Both performance and grip on slippery surfaces have been improved on this successful diving fin.

Improved Grip

New extended power plate (1) and soft, co-molded Thermo Plastic Vulcanizate (TPV) heel pad (2) and mid-sole pad (3) with rough surface finish for optimal grip. TPV is highly tear resistant and durable. And contrasting grip color gives them a modern, refreshed look.

Revised Blade Geometry

Lateral rigidity has been slightly increased to improve Frog and Alternate kicks, and to improve responsiveness and thrust at full power.

SCUBAPRO has achieved this by (1) using a crescent shaped baton in the central section and (2) making variable thickness wings that taper out from the central ribs to the wing tips.

SEAWING NOVA GORILLA

NEW DESIGN

Part number	Size
25.736.200	S
25.736.300	M
25.736.400	L
25.736.500	XL

- Clean water blade geometry
- Variable pivot control ribs
- Ergonomic foot pocket with extended heel plate
- Heavy duty marine grade bungee strap system
- Durable Monprene® construction
- Stiffer blade than the original Seawing Nova

SEAWING NOVA²

NEW DESIGN

Part number	Size

25.732.200	S
25.732.300	M
25.732.400	L
25.732.500	XL

The Seawing Nova combines classic SCUBAPRO fin technology with the latest innovations in hydrodynamic design. This multiple award winning fin has the power, acceleration and maneuverability of a blade fin but the comfort and effortlessness of a split fin. The articulated joint allows the blade to pivot and the entire blade generates thrust. Monprene® elastomer provides superior technical characteristics and makes the Seawing Nova very durable.

- Clean water blade geometry
- Variable pivot control ribs
- Ergonomic foot pocket with extended heel plate
- Heavy duty marine grade bungee strap system
- Durable Monprene® construction

NEW

700

700R

Part number	Description
30.220.000	NOVA LIGHT 700
30.220.150	NOVA LIGHT 700R

- Rugged black aluminum body offers a stealthy “tech” look while providing lightweight long-term durability.
- Interchangeable light head is equipped with the newest CREE XML2 LED.
- 700 lumen illumination ranks among the best in its class (see below).
- Double O-ring seals ensure watertight integrity.
- Diamond-shaped knurling (metal indentations) on both handle and light head guarantees a firm grip, with or without gloves.
- Easy twist on/twist off activation allows for trouble-free operation, regardless of depth.
- Shock-proof rubber protections keeps the light head from knocks and bumps.
- Over-pressure valve releases any battery off-gassing—the ultimate dive light safety feature not normally found on torches in this price point.
- A depth rating of 300m ensures worry-free lighting in virtually all diving conditions.
- The Nova 700 is powered by three C batteries, either disposable or rechargeable.
- The Nova 700R is powered by a single 18650 Lithium-ion rechargeable battery, available worldwide.
- Both torches are sold without batteries,

NOVA 200

------------	-----------------------------

GENERAL SALES TERMS AND CONDITIONS
BETWEEN SCUBAPRO UWATEC SAS AND ITS AUTHORIZED DEALERS SCUBAPRO AND/OR SUBGEAR

Preamble. The present general conditions of sale are concluded between the companies SCUBAPRO UWATEC SAS, incorporated in the form of "Société par actions simplifiée", registered in the Trade and Commercial register under number 400.233.029 (hereafter the "Seller" or "SCUBAPRO") and any dealer authorized by SCUBAPRO and/or SUBGEAR (hereafter the "Dealer"). The present general sales terms and conditions prevail over any other contractual document and, in particular, over all general sales terms and conditions of the Buyer. The act of placing an order implies total and unconditional adhesion of the Dealer to the present general conditions of sale. All conflicting conditions required by the Dealer, unless explicitly accepted in writing by the Seller, shall be unenforceable against the Seller.

1. SCUBAPRO and/or SUBGEAR products are sold exclusively by Dealers, part of the selective distribution network.
- 1bis. The Dealer acknowledges having read the present general sales terms and conditions before placing any order and accepts them without reservation. Any orders placed are considered binding and irrevocable, and imply acceptance of the present conditions.
2. All prices, term discounts, and conditions are subject to change without notice at any time. The prices charged to the Dealer are the ones applicable at the time of acceptance. The price list cannot be reproduced without written consent from SCUBAPRO. All prices charged are quoted in EUR excluding VAT and possible shipping costs.
3. In the absence of a written agreement to the contrary, a delay in delivery does not give rise to any indemnity in favor of the Dealer.

SHIPPING

4. Orders received over 750€ (excl. VAT) are delivered free of charge if deliverable in one single shipment within the French Metropolitan Territory (except for repairs). All orders placed between 150€ and 750€ (excl. VAT) will be subject to a fixed carriage charge of 10€ (excl. VAT) within the French Metropolitan Territory (except for repairs). Orders under 150€ (excl. VAT) will be subject to a fixed carriage charge of 15€ (excl. VAT) within the French Metropolitan Territory (except for repairs). The Dealer shall bear all additional costs related to express delivery.

CLAIMS AND RETURNS

5. Shortage or breakage is to be notified to SCUBAPRO within 2 working days of their receipt. In case of non-delivery, notification should be made by the Dealer to the courier and SCUBAPRO within 3 days of the invoice date relating to the product that was to be delivered. Whilst every attempt is made to deliver the goods in time, we cannot be held responsible for any delivery delays where the supply or production of those goods is not under our control.
6. Goods may not be returned without prior written consent of SCUBAPRO. Authorized returns of saleable goods, other than erroneously supplied or defective products, will be subject to a charge of 20% of the selling price without VAT of the product to cover repacking costs. The costs of reshipment are to be carried by the Dealer. All returns must be accompanied with the Dealer's explanation of the reason for return on company stationery or return document.
7. Our products, even with shipping paid, travel at the risk of the Dealer, who is responsible, in case of damage, deterioration or loss of the products sent to him, for reserving all rights and for filing any recourse against the transporters, which shall bear sole liability. The products are insured only in response to a written request by the Dealer and at the Dealer's expense.

AUTHORIZED DEALERSHIP

8. For safety reasons and in light of the highly technical nature of many of our products:
 - 8.1 All Dealers must continuously meet the following criteria:
 - a. Dealers must be able to provide service and repair facilities for SCUBAPRO and/or SUBGEAR products.
 - b. For sales of regulators and dive computers, Dealers must keep a record in their files of the serial numbers of the product(s) purchased and the name, address and other contact details of the purchaser. SCUBAPRO has the right to request this information from the Dealer in case of a product defect.
 - c. Dealers must use SCUBAPRO and/or SUBGEAR display and promotional material in their stores. SCUBAPRO and/or SUBGEAR catalogues and promotional literature must also be available for consumers to collect and take away.
 - 8.2 Dealers must additionally meet the following criteria at all times:
 - a. During the opening hours of Authorized Dealerships, a person who has participated in a SCUBAPRO training course must always be present. Such persons also have to be up to date with the required refresher courses.
 - b. Dealers must have retail space specifically dedicated to the display and demonstration of SCUBAPRO and/or SUBGEAR products.
 - c. Dealers must be in an accessible location for consumers. A shop with retail frontage must be available in order to appropriately display their products to the consumers.
 - d. Dealers must at all times have the SCUBAPRO and/or SUBGEAR product lines available in their stores and the whole range of products has to be adequately represented in the store.
 - e. Dealers must provide opening hours in conformity with local business practice.
 - f. Any opening of a SCUBAPRO account by a dealer is subject to a minimum order for each of the SCUBAPRO and/or SUBGEAR product ranges, pursuant to lists supplied upon request and regularly updated.
9. Transfer of products bearing the SCUBAPRO and/or SUBGEAR trademarks to non-authorized dealers is formally forbidden. Dealers may only sell SCUBAPRO and/or SUBGEAR products to end users or to other Dealers within the EU/EEA. In case of doubt, the Dealer must contact SCUBAPRO to verify whether the EU/EEA dealer is an authorized Dealer.
10. Dealers are free to set their prices in accordance with applicable national laws. SCUBAPRO has established a list of recommended resale prices to give an indication of the price levels Dealers can expect to obtain. The prices in this list reflect the high quality and technicality of SCUBAPRO and SUBGEAR products. The Dealer undertakes not to compromise the high-end image of the SCUBAPRO and SUBGEAR products via activities or practices that may have a negative effect. This includes any action that is found to have a cheapening or discriminatory effect in relation to competing products.
11. For on-line sales of SCUBAPRO and/or SUBGEAR products, the requirements for the Dealers are the following:
 - a. For each product, a photograph of the product accompanied by the description from the SCUBAPRO and/or SUBGEAR price list and catalogue should be provided.
 - b. A safety warning should be included at the end of the purchase order, with an obligation on the part of the customer to check a box acknowledging the following:

"I acknowledge that my experience as a diver or that of the person who will use this diving equipment is sufficient to be able to use this equipment properly and safely. I know that before participating in any diving activity whatsoever, a thorough course of instruction in the theory and practices involved in diving should be successfully completed. This safety warning does in no way replace the need for a complete reading of each operating manual of the SCUBAPRO and/or SUBGEAR products I have purchased and SCUBAPRO is not responsible for damages resulting from improper use of the products."
 - c. The terms and conditions of sale must be provided on your site, and the customer also has to acknowledge understanding and acceptance of them. The acknowledgements must be in the form of 'check boxes' rather than just a click through. Furthermore, if the person does not check the boxes, he/she should be informed that the order cannot go through.
 - d. The site must also include the following: "Delivery only to addresses in the EU/EEA." As a result of this, you must set up your site in such a way that the submission of an order with a delivery address outside those countries is rejected.
 - e. Your site should indicate that customers can contact you in person, via the telephone or by e-mail and must give the necessary information (address, telephone number, e-mail address).

- f. Only Dealers are authorized to sell SCUBAPRO and/or SUBGEAR products on the internet.
- g. You must keep on file the customer's name, address, telephone number and e-mail, as well as the serial number(s) of the product(s) purchased and proof of the customer's safety warning acknowledgement.
- h. Customers must be able to ask Dealers questions about SCUBAPRO and/or SUBGEAR products, either over the internet, by telephone or in person. If you sell products over the internet, a sales person who has followed SCUBAPRO required training and refresher courses (pursuant to point 8 of the present terms and conditions of sale) must be available during your opening hours to answer questions via the internet, over the telephone, and in person. Questions asked by internet must, as far as possible, be answered on the same day that they are received.
- i. The Dealer is also responsible for ensuring that his internet sales comply with applicable laws, in particular those flowing from Directive 97/7 of the European Parliament and of the Council of 20 May 1997 on the protection of consumers in respect of distance contracts (Official Journal of the European Communities L 144/19 of 4.6.97), Directive 2000/31/EC of the European Parliament and of the Council of 8 June 2000 on certain legal aspects of information society services, in particular electronic commerce, in the Internal Market (the Directive on electronic commerce) (Official Journal of the European Communities L 178/1 of 17.7.2000) and all legal and regulatory national provisions regarding consumer protection in general and data protection.

WARRANTY

12. SCUBAPRO regulators are guaranteed for life, SUBGEAR regulators for 30 years, for the initial buyer. All other articles are guaranteed for two years.
13. SCUBAPRO is liable under the said guarantee solely for manufacturing defects duly noted by our technical departments. The guarantee may not apply if our equipment is not used and maintained under the conditions stipulated in the technical notices, or if it is due to normal wear and tear of the product.
14. If the Dealer modifies or changes the composition of a SCUBAPRO and/or SUBGEAR product or if he uses it in a manner contrary to the recommendations given by SCUBAPRO, the guarantee offered by SCUBAPRO is no longer applicable.

PAYMENT

15. Our invoices are payable upon receipt or by bill of exchange if preliminarily accepted in writing by the Seller. Payment (in EUR) must be made to a bank account opened in the name of SCUBAPRO. The customer is entitled to an early payment discount of 2% when invoices are paid before due date and upon receipt of invoice. The minimal opening orders must be prepaid (i.e. paid before the goods leave SCUBAPRO's warehouse) but early payment discount is not applicable to this order. Payment facilities may then be granted depending on the banking information supplied by the new Dealer. In the first year, the maximum payment period term may not exceed 30 days end of month. Payment is due in full without deduction, counterclaim or set off and the Dealer acknowledges that the respect of payment delays is of essence. Any invoice not paid on the due date will automatically incur (i) a fixed rate fee of 40 euros for debt collection (clauses L 441-6 and D 441-5 of French Commercial law) and (ii) interest at the rate applied by the European Central Bank at its latest refinancing operation increased by 10 percentage points until the outstanding payment is made in full. These delay penalties are payable without the need of a warning. For the avoidance of doubt the Dealer will be responsible for any costs and expenses (including the costs of procedure) incurred by the Seller in obtaining and recovering such payment. Until payment is received in full the legal and equitable title and interest in all products shall remain with the Seller, although risk in the products shall pass to the Dealer.
16. All bills of exchange that are accepted but not paid shall be increased by the amount of the corresponding bank expenses.
17. When the Dealer's credit rating deteriorates, SCUBAPRO reserves the right, even after partial shipment of an order, to require the Dealer to provide guarantees that we consider appropriate with a view to proper performance of the Dealer's commitments. Refusal to comply shall entitle SCUBAPRO to cancel all or part of the contract.

PENALTY CLAUSE

18. A refusal to accept our bills of exchange and/or any breach of these terms shall result in all outstanding balances being due and payable immediately by the Dealer, regardless of the foreseen payment method.
19. Without prejudice to any other right or remedy available to the Seller, any breach of the present conditions of sale including, but not limited to, a failure to make a due payment, shall entitle the Seller to suspend supplies, terminate its contract and/or any orders in progress. Such failure shall release the Seller from its commitments and entitles the Seller to repossess any unpaid delivered goods at any time after such breach. The costs and expenses of any termination of its contracts and/or repossession of the products shall be paid by the Dealer who commits to completely indemnify the Seller for all costs and expenses incurred by it in connection with such termination and repossession of the products.

RISKS

20. The risks related to the products of the sale are transferred to the Dealer from the moment of notification, provision or of delivery of products to a carrier in view of their delivery to the Dealer.

RETENTION OF TITLE

21. In accordance with the provisions of the French law of 12 May 1980, the products shall remain the property of SCUBAPRO until the whole invoice price has been paid. Until that moment, the products provided or supplied to the Dealer are deemed to be consigned and the Dealer bears the risk of all damage caused or suffered by the delivered products. The forwarding of a commercial paper or any other title creating an obligation to pay is not considered to constitute a payment.

INTELLECTUAL PROPERTY RIGHTS

22. The Seller's trademarks, as well as all other figurative marks, whether representational or not and more generally all other marks, illustrations, images and logotypes that appear on the products sold by the Seller to the Dealer, their accessories or their packaging, whether or not they are registered, are and shall remain the exclusive property of the Seller. Total or partial reproduction, modification or use of these brands, illustrations, images and logotypes, for whatever reason and on any medium whatsoever, without express and prior authorization of the Seller is strictly forbidden. The same applies to the combination or conjunction with any other brand, logotype and more generally any distinctive sign used to form a composed logo. The same applies also to all copyrights, designs, models and patents which are the property of the Seller.

NON WAIVER

23. The fact that one party did not claim a breach by the other party of one of the obligations contained in the present conditions of sale cannot be interpreted as a waiver of this obligation for the future.

PARTIAL INCAPACITY

24. If one or more clauses of the present terms and conditions of sale were deemed illegal or invalid, such invalidity would not invalidate other provisions of these conditions.

APPLICABLE LAW AND ASSIGNMENT OF JURISDICTION

25. The present terms and conditions of sale are governed by French law.
26. Any dispute or litigation, whatever the cause thereof may be, and in particular regarding the conclusion, interpretation, execution or not of the present conditions of sale and of its outcome, shall be subject to the sole jurisdiction of the Commercial Court of Antibes, which shall enjoy sole jurisdiction even in case of several defendants or guarantee call.
